ITER BUSINESS FORUM

23 to 25 april 2025

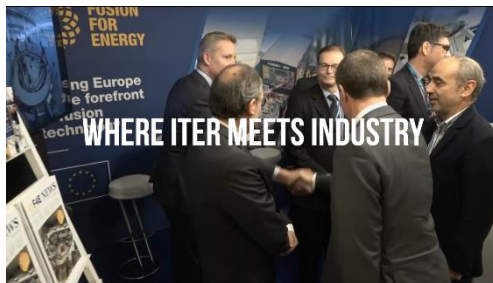

Why you should attend?

Marseille, France | April 23-25, 2025

The international ITER Business Forum (IBF/25) helps you to access **industrial opportunities** and gain a competitive edge by learning how international partnerships can drive your business forward. The IBF attracts **strategic partnerships** in the community around the world and key players in the **fusion supply chain**. Discover a wealth of opportunities, including tenders and contracts related to ITER's complex systems, like diagnostics, cryogenics, and superconducting magnets.

Exclusive opportunities!

- Gain firsthand insight into ITER's upcoming tenders and business prospects.
- Connect with over 1,000 key players from international, European, and regional companies involved in fusion.
- Participate in B2B meetings tailored to boost your business network.
- Discover technological advancements and meet supply chain innovators pushing high-tech solutions forward.

With plenary sessions, technical workshops, and exclusive site visits, **IBF 2025** is a must-attend event to develop your networking!

What's new?

Come one, come all!

Almost **50 privately funded fusion start-ups** joined the ITER fusion community. Over the past five years, they have attracted more than 5.5 billion euros in private investment and laid the foundation for an extended, open collaboration **for the benefit of all.**

Commonwealth Fusion Systems, ENN Energy Research Institute, EX-Fusion, Firefly Fusion, Gauss Fusion, General Atomics, General Fusion, Helical Fusion, Helicity Space, Kronos Fusion Energy, LPP Fusion, Marvel Fusion, MIFTI, Novatron Fusion, OpenStar Technologies, Proxima Fusion, Realta Fusion, Renaissance Fusion, Startorus Fusion, Stellarex, TAE Technologies, Thea Energy, Tokamak Energy, Type One Energy, Wendelstein 7-X, Enable Fusion, ExoFusion, Kyoto Fusionengineering.

IBF: a great opportunity.

According to **Director-General Pietro Barabaschi**, joining the IBF is “a great opportunity for industrial players from all ITER member countries to reconnect”. These perspectives “will extend not only to ITER but beyond to private sector initiatives”.

A UNIQUE OPPORTUNITY

Registrations now!

Don't miss your chance to secure your spot at the IBF 2025!
